Finito® Comfort

Key Performance and Benefits

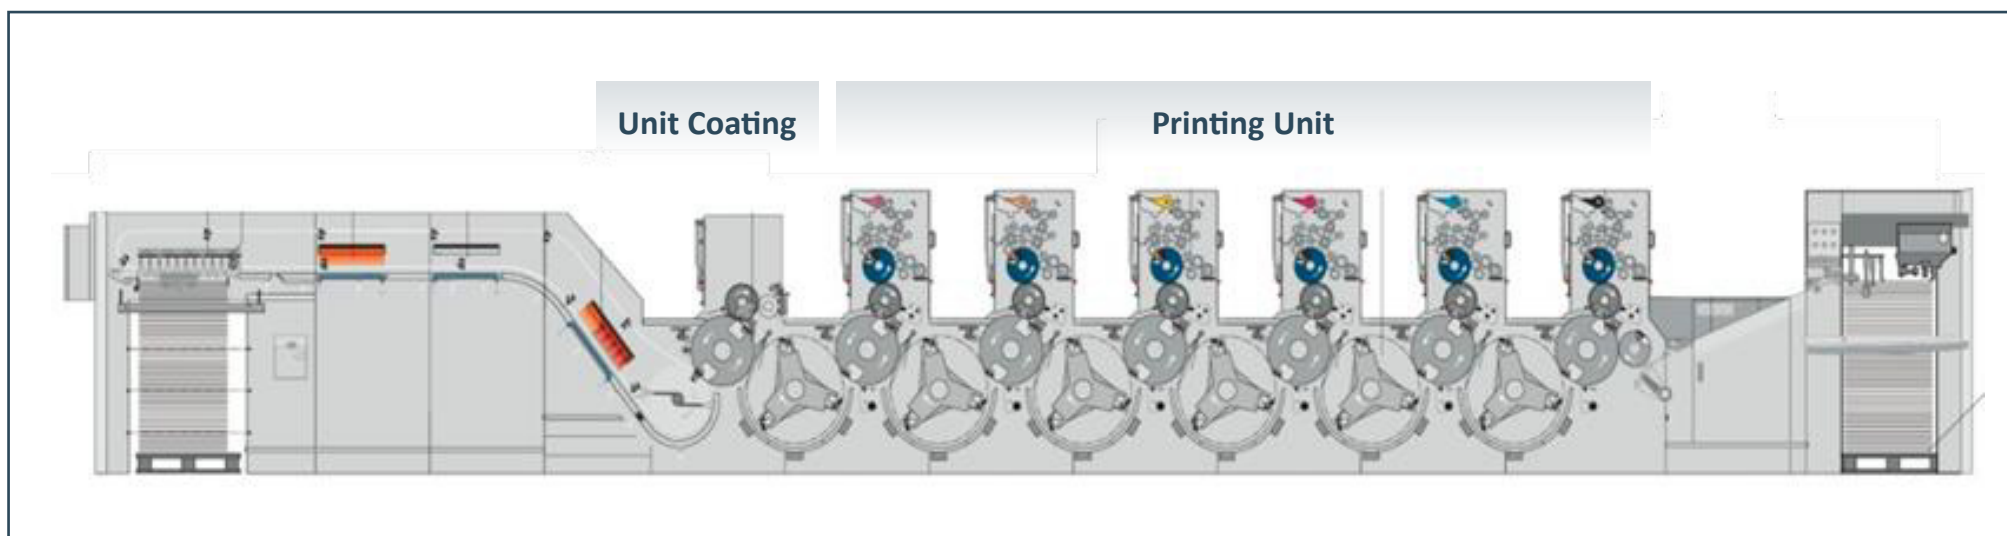

- Total new compound able to combine the best performance of Rubber and Thermo Plastic Coating Plate
- Excellent varnish transfer
- Improve the effect Gloss varnish
- Improve the effect Matt varnish
- Anti-shock material and noise reduction
- Easy to strip for spot
- No Ink Piling
- Low roughness

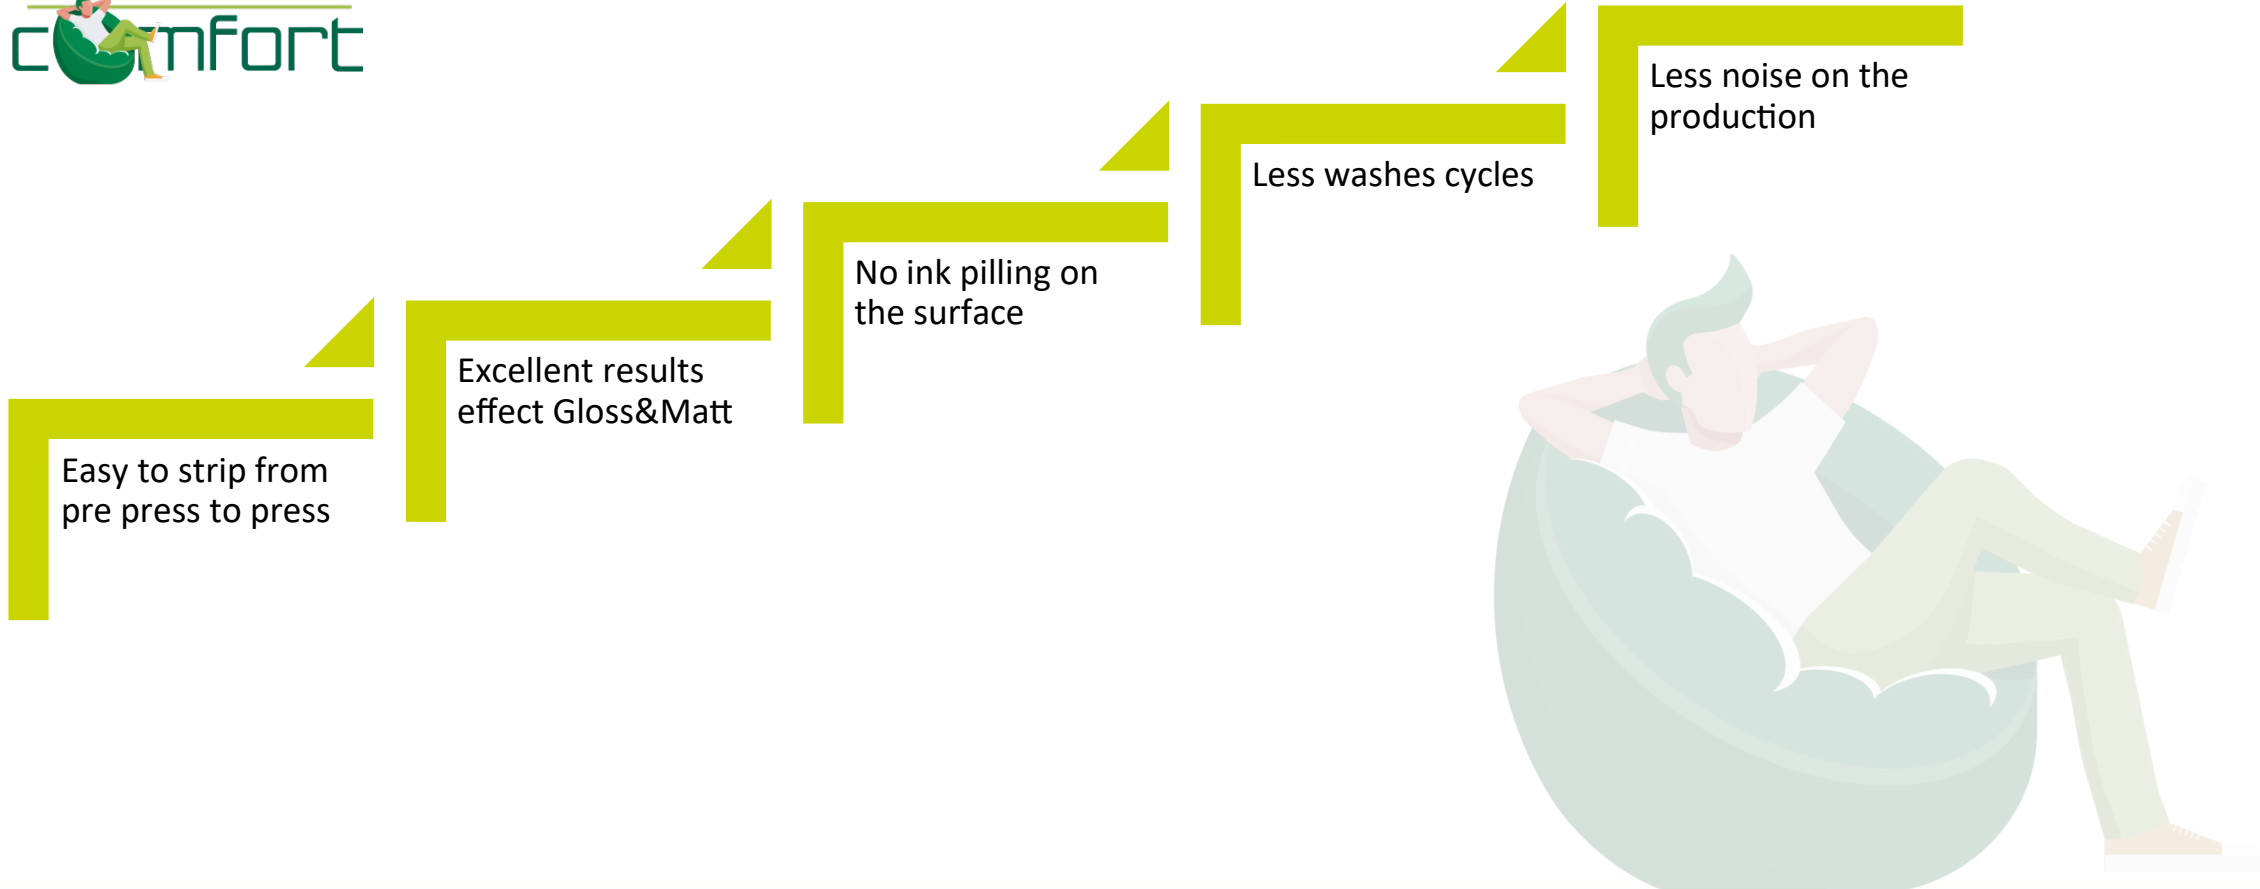

Finito® Comfort

Configuration sheet-fed machine

Finito® Comfort

Production Stability

Traditional TPU Coating Plate – Hardness Shore A 80

State-of-the-Art Today

Comfort Coating Plate – Hardness Shore A 55

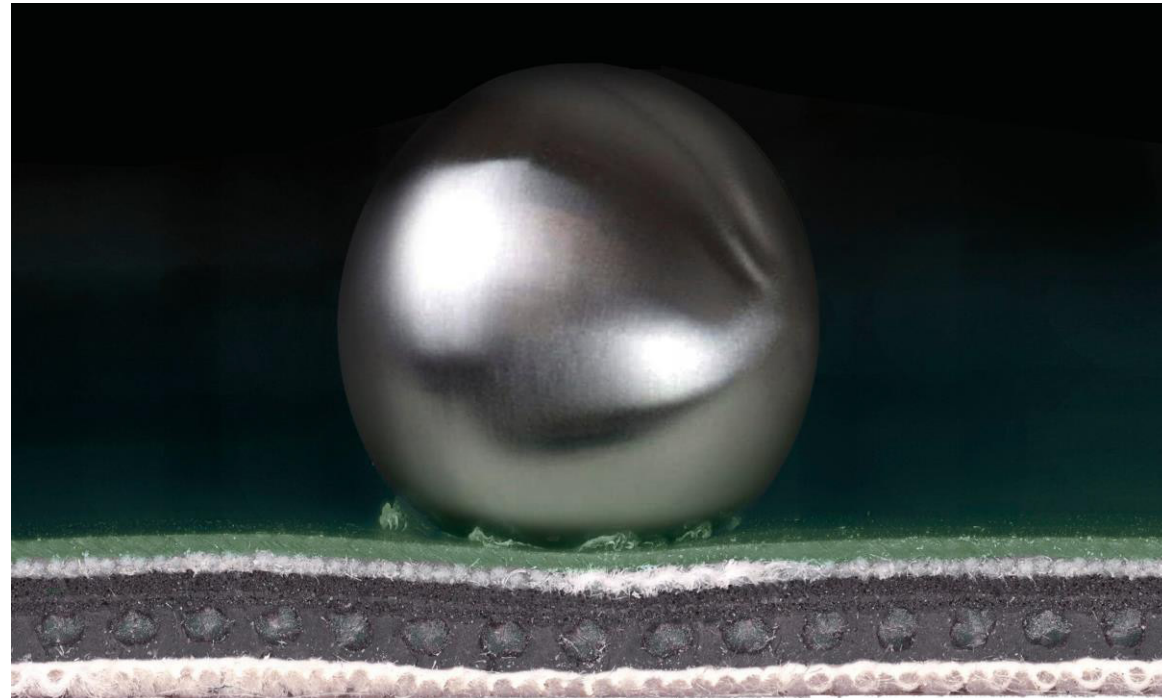

Improved Varnish Transfer
Better Shock Absorption
Less Noise during Coating process

Audio **Without** Finito Comfort

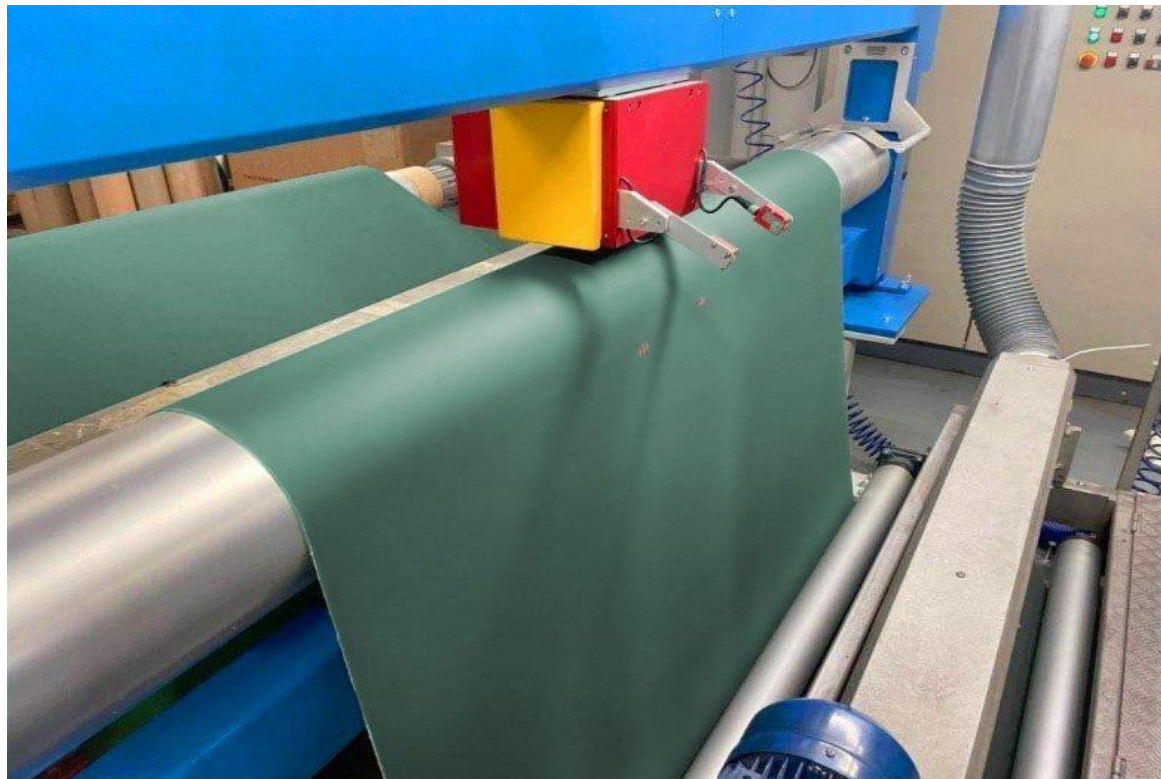

Audio **With** Finito Comfort

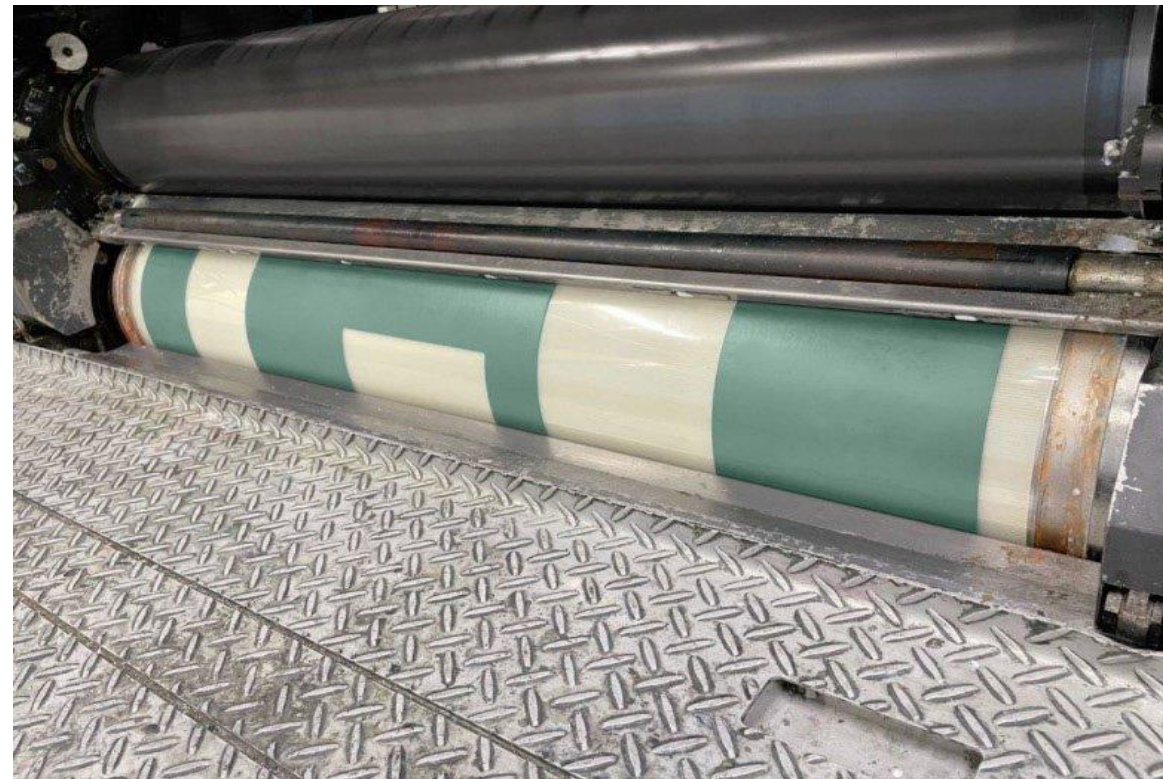

Coating Plates 195

Combines the advantages of a fabric and compressible structure with the special Comfort Top surface

Production and Quality Control

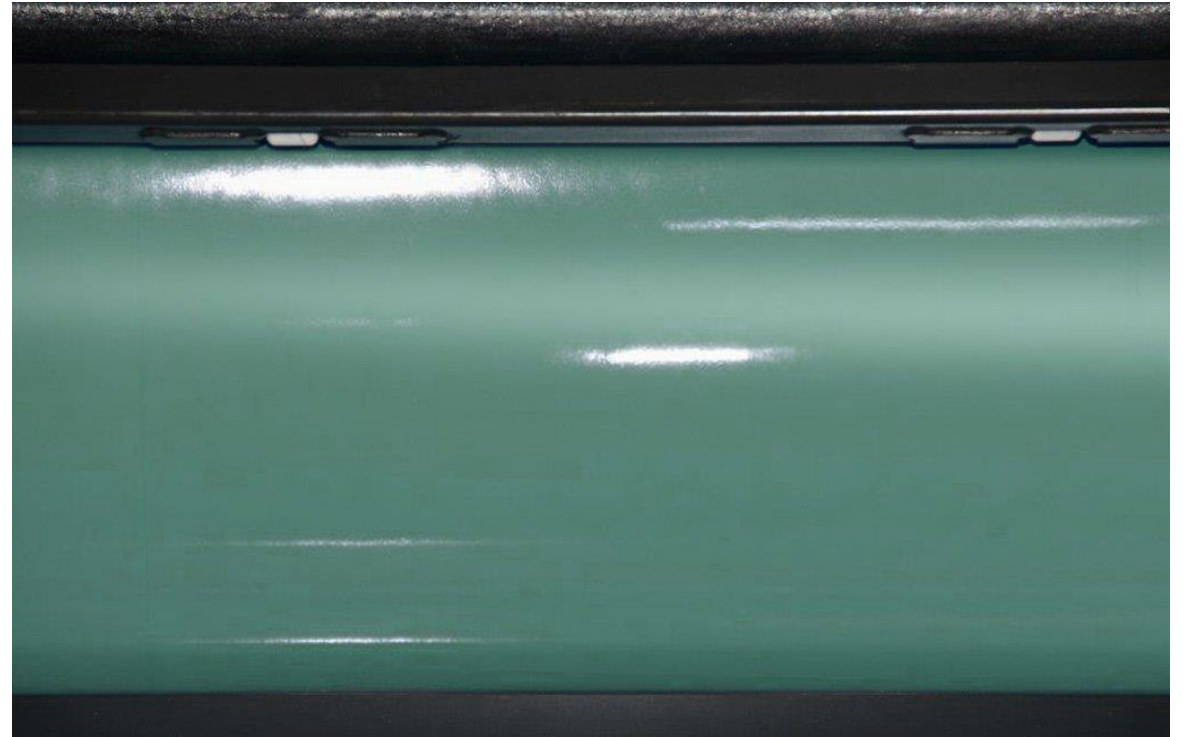

Coating Unit with Comfort

Rubber Coating Plate

Ink Piling

Comfort Coating Plate

No Ink Piling

- Less washing and downtimes

Finito® Comfort

INK COMPATIBILITY	Water-base coatings
PRINTING SURFACE COLOUR	Pearl Green
THICKNESS (mm)	1.15 – 1.35
ROUGHNESS	Ra 0.4 μ
HARDNESS SHORE A	55
CARRIER	Polyester
CARRIER THICKNESS (μ)	0.30
CUTTING DEPTH (mm)	0.75 – 0.95

ADDITIONAL INFORMATION

APPLICATIONS	Any Substrate

Finito® Comfort 195

INK COMPATIBILITY	Water-base coatings
PRINTING SURFACE COLOUR	Pearl Green
THICKNESS (mm)	1.95
ROUGHNESS	Ra 0.4 μ
HARDNESS SHORE A	55
CARRIER	3 ply rubberized fabric
CARRIER THICKNESS (μ)	1.05
CUTTING DEPTH (mm)	0.90

ADDITIONAL INFORMATION

APPLICATIONS	Any Substrate
---------------------	---------------

All Season cross-section 1.15 and 1.35

Coating plates suitable for waterborne and UV curable overprint varnishes

Available in 1.15, 1.35 and 1.95 mm thickness versions

Benefits:

optimal printability

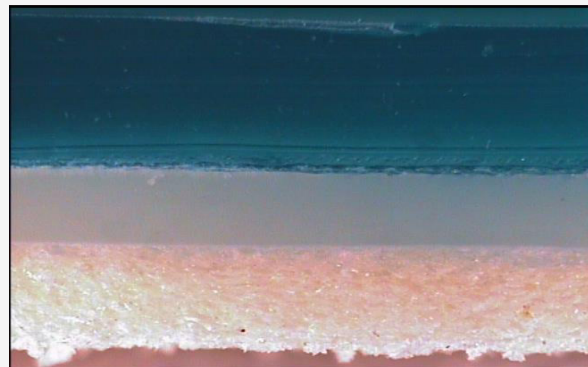

very high swelling resistance against UV varnishes and washes

very low ink back-trapping

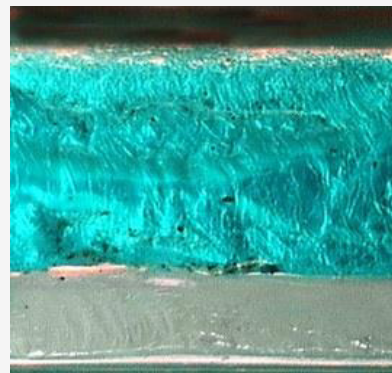

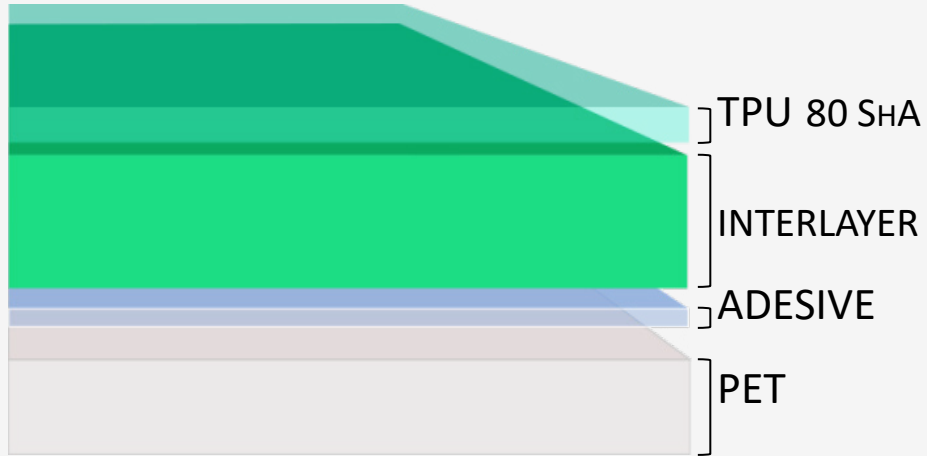

easy to peel-off

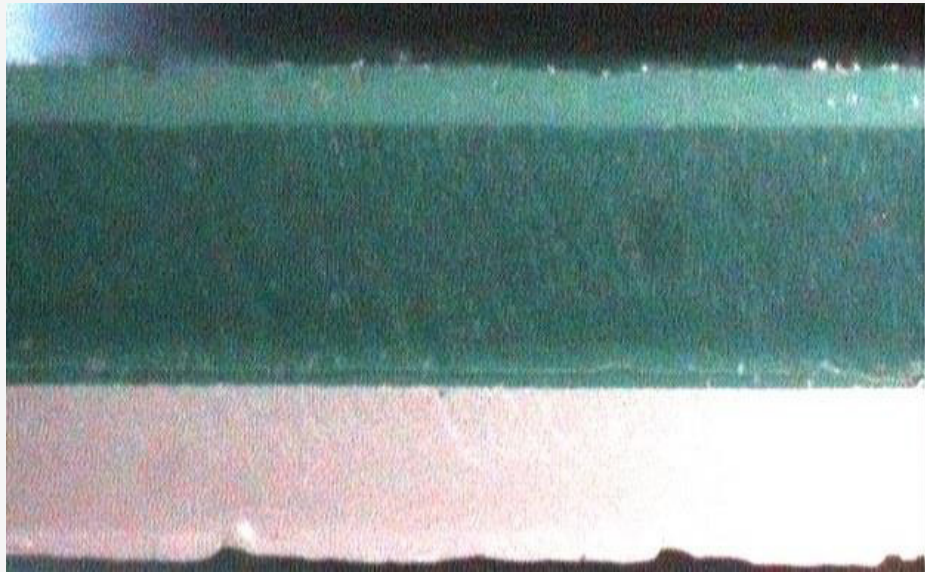

long run resistant

All Season cross-section 1.95

Coating Plates

- Finito Rain cross-section 1.15 and 1.35

Coating plates suitable for waterborne overprint varnishes in 1.15, 1.35 and 1.95 mm thick versions

Benefits:

- optimal printability
- low ink back-trapping
- easy to peel-off
- long run resistant

Finito®
