# BINDING MACHINES FOR DUPLEX PRINTS

---

## • Description

VS 350 B is a compact machine which takes care of all the processes involved in photobook binding i.e. window cutting, creasing, hole punching, and stapling. With an in built digital microcontroller, VS 350 B can pre-define each project and can help you save it for later use. The machine also has the unique feature of creating two creases on a single page, specially used for creasing the first and last pages of the photobook. Additionally, it offers the highly accurate first of its kind V-Shape hole punching and step-binding for a complete LayFlat photobook opening.

## • Details

The VS 350 B has a digital microcontroller with a large LCD touchscreen, having the ability to pre-define and save projects for future use. It can hold up to 99 programs in memory, including precise details for window-cutting, creasing, and hole-punching measurements. This machine also offers the patented V-shape LayFlat binding technology and the unique feature of creating two creases on a single page.

## • Key Features

- Digital Microcontroller with a large LCD touch screen to pre define & save each project.
- Innovative Patented technology for V-Shape LayFlat binding.
- Two binding options are available window cutting & creasing, with hole punching & stapling.
- 99 programs can be stored with precise memory of window cutting, creasing & hole punching measurement.
- Unique feature of making two creases on a single page.

Professional, Attractive And Elegantly Crafted Photobooks

**Production Line In Your Business**

## Specifications

Maximum Paper Size	:	<b>482 - 482 mm</b>
Minimum Paper Size	:	<b>152 - 203 mm</b>
Max. Thickness of Book Block	:	<b>18 mm (stapler &amp; media restriction)</b>
Speed	:	<b>350 sheets per hour</b>
Power Supply	:	<b>220 V 50 HZ Single phase</b>
Maximum Power Consumption	:	<b>500 W</b>
Machine Dimension	:	<b>1473 (L) x 762 (W) x 1295 (H) mm</b>
Weight	:	<b>210 kg</b>
Air Compressor	:	<b>0.5 - 0.70 MPa 90 L/min</b>
