BINDING MACHINES FOR DUPLEX PRINTS

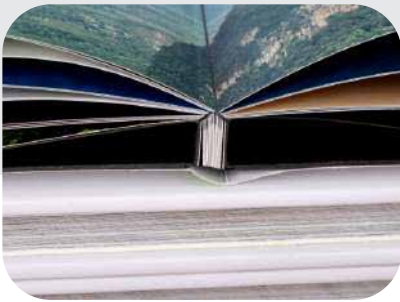

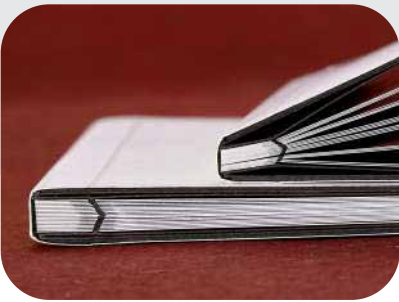

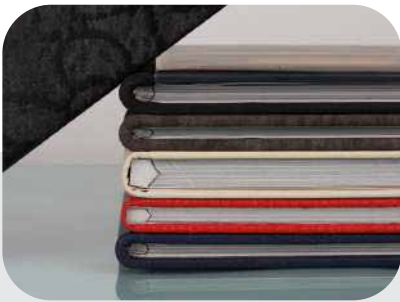

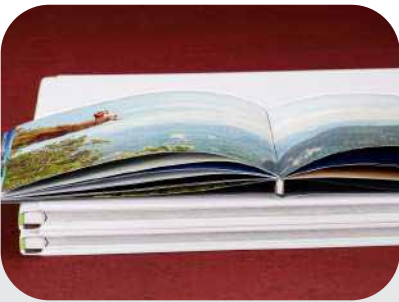

- **Description**

TP 450 VS a is a multi-functional Slit and Strip Binding machine which is used to give photo books made of special media, a completely LayFlat opening with V-Shape Technology. This machine solves the problem that typically occurs when laminating photo books that have unique surfaces such as Texture Paper, Metallic Paper, Luster Paper etc., which is that laminating such unique media reduces its charm and richness. TP 450 VS a solves this problem by slitting and taping the spine along with strengthening and adding flexibility to it. Auto feeder can feed the media as per the programmed, and the slitting distance from the spine can be adjusted. TP 450 VS a also comes with Two Slitting device for Multiple ups books in single page, a Paper Guide to help set and maintain distance from the spine and create a V-Shape, along with a Digital Display Panel to set the slitting distance.

- **Key Features**

- 7" Touch Panel Display :**
 - Easy & User-friendly touch control program for V-Shape Layflat Binding.
- Auto Feeding :**
 - Electro Pneumatic feeder is specially designed for inserting one sheet at a time.
- TWO Slitting Device :**
 - One of the two Slitting device (cutter) is fixed and the other is adjustable in between the paper width.
- Two Tape Rolls :**
 - The adhesive tape is specially designed, to ensure proper holding of the joints and resulting in accurate binding.
 - Auto Indication alerts, before the tape roll is about to finish.
- Tape Finish :**
 - Gloss & Luster Finished tapes for the various types of media.
- Auto Cut (Sheet Separator) :**
 - Built in automatic cutting system for cutting tapped sheets.
- V-Shape Process :**
 - Our patented V-Shape Technology to arrange the paper in V-Shape for lay flat opening.

Professional, Attractive And Elegantly Crafted Photobooks Production Line In Your Business

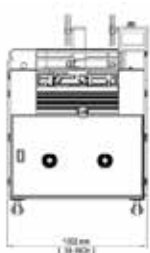

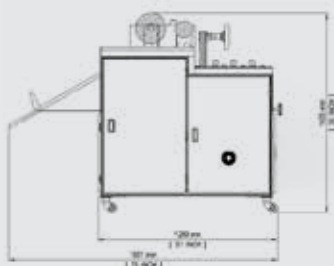

Specifications

Maximum Paper Size	:	19" - 19" (482mm - 482mm)
Minimum Paper Size	:	8" - 8" (200mm - 200mm)
Maximum Thickness of Book Block	:	18mm (stapler & media rstruction)
Speed	:	450 Sheets /hour
Power Supply	:	220V 50HZ Single phase
Maximum Power Consumption	:	1500W
Machine Dimension	:	1931(L) x 1002(W) x 1435(H) mm
Weight	:	300kg
Air Compressor	:	0.6 - 0.8MPa 110L/min

TP 450 VS a

*All-in-one photobook binding and lamination system
